

CATH-TECH™ PMA RECTIFIERS

Microprocessor Controlled Pulse Mode, Autopotential Rectifiers

- ◆ Fully adjustable settings at the push of a button, over the full range of potential, voltage and current outputs.
- ◆ Instant OFF autopotential control.
- ◆ High efficiency even at low power outputs.
- ◆ Compact light weight components for added efficiency.
- ◆ Modular for ease of service.
- ◆ Available in anodized aluminum or stainless steel cases for corrosion protection.
- ◆ Remote monitoring and interruption available as an option.

- * Instant OFF autopotential control
- * Constant current with electronic voltage limiting
- * Constant voltage with electronic current limiting
- * Push button control of settings
- * Remote interruption capability (optional)
- * Modular design for ease of service

How to order your PMA Rectifier

AVAILABLE OUTPUTS

MAXIMUM VOLTS

MAXIMUM AMPS	25	50	100
	10	5	2.5
	20	10	5
	40	20	10
	80	40	20

ORDERING CODE

PM A Z 50-10 A L R

**RECTIFIER TYPE
PULSE MODE**

AUTOPOTENTIAL

INPUT VOLTAGE

MAX. DC VOLTS

MAX. DC AMPS

CASE

OPTION

OPTION

INPUT AC VOLTAGE

W = 120 VOLTS
 X = 240 VOLTS
 Y = 120/240 VOLTS
 Z = OTHER VOLTAGE

CASE

A = ANODIZED ALUMINUM
 S = STAINLESS STEEL

OPTIONS

L = UPGRADED LIGHTING PROTECTION
 R = REMOTE MONITORING
 H = 50 Hz OPERATION
