AIR COOLED
TAP CHANGER**

CATHODIC PROTECTION

RECTIFIERS

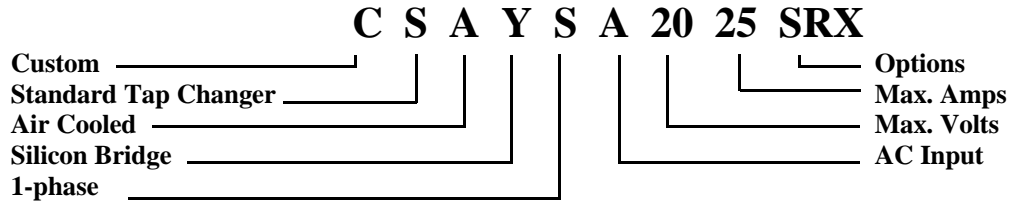

FEATURES

- Precision Crafted by CATH-TECH™
 - Single or three-phase AC input
- 20,25,40 or 63 step output adjustment
 - Heat sinked silicon stacks
- Electrostatic shield between primary and secondary of transformer
 - Magnetic breakers on primary
 - 14 gauge steel standard
- Fusion bonded polyester finish
 - Digital metering standard
- Lightning protection standard

How to Order

Ordering Code Example

OPTIONS

of phases:

S = 1 Phase Y = 3 phase

AC Input:

A	115/120 volts	60 Hz	1 Phase
B	120/240 volts	60 Hz	1 Phase
C	240 Volts	50/60 Hz	1 Phase
D	Other specify		

Cabinet:

A	=	Anodized Aluminum
S	=	Stainless Steel
X	=	Other than standard Gauge
Y	=	Other than standard finish

Other Features:

R	=	Remote Monitoring
C	=	Remote Control & Monitoring
L	=	Heavy Duty Lightning Protection
E	=	Efficiency Filter
F	=	25 Adjustment Taps
G	=	40 Adjustment Taps
H	=	63 Adjustment Taps
I	=	Built in Interrupter
K	=	Signal Light
Y	=	50 Hz input Frequency
Z	=	Other features specify
